 - (b) Multifaceted Sign. For purposes of calculating the permitted sign area, the average of the individual sign areas shall be used. *(For example, the average area of a two-faced sign with a cumulative total of 400sqft shall be 200sqft).* For purposes of calculating the permit fee for a multifaceted sign, the total cumulative area of the individual sign areas shall be used. *(For example, the permit fee of a two-faced sign with a cumulative total of 400sqft shall be based on 400sqft).*
 - ii. Height.
 - (a) The height of a sign shall be computed as the distance from the base of the sign at normal grade to the top of the highest attached component of the sign or structure supporting the sign.
 - (b) Normal grade shall be construed to be the lower of (1) existing grade prior to construction or (2) the newly established grade after construction, exclusive of any filling, berming, mounding, or excavating solely for the purpose of locating the sign. In cases in which the normal grade cannot reasonably be determined, sign height shall be computed on the assumption that the elevation of the normal grade at the base of the sign is equal to the elevation of the nearest point of the crown of a public street

or the grade of the land at the principal entrance to the principal structure on the zone lot or parcel, whichever is lower.

- iii. Maximum Total Permitted Sign Area for a Lot or Parcel. - i. Maintenance. All signs and components thereof shall be kept in good repair and in safe, neat, clean, and working condition.
- j. Abandoned Signs and Uses. All signs, their mounting, and related components shall be removed within thirty (30) days of the day the business which it identifies is no longer conducted. When a permanent, multi-tenant sign exists that allows a "face-out/face-in" change to identify a new business, said sign may be left in place, but must be covered with a durable and attractive material. Under no circumstances shall any permanent sign be left in place for more than three (3) months. The owner of the premise upon which the sign is located is responsible for its removal or covering.
- k. Non-conforming Signs. Signs existing prior to the adoption of these sign regulations shall be classified as follows:
 - i. Conforming: the sign meets the new regulations;
 - ii. Legally non-conforming: the sign met the old regulations and is allowed to remain, but cannot be expanded or replaced; or
 - iii. Illegal:

SIGN, ABANDONED

A sign that is:

- 1) associated with an abandoned use; and/or
- 2) remains after the termination of the business; and/or
- 3) on its immediate premises but not adequately maintained or repaired.

SIGN, ILLUMINATED

Any sign lighted by or exposed to artificial lighting either by light on or in the sign or directed toward the sign.

SIGN, LEGAL NON-CONFORMING

A pre-existing, legally permitted sign, or portion thereof, which was designed, erected, or structurally altered such that it does not conform to the regulations of the zoning district in which it is located.

SIGN, PERMANENT

A sign attached to a permanent structure, foundation, or mounted in the ground in a manner that enables the sign to resist environmental loads, such as wind, and precludes ready removal or movement of the sign. The use of anchor bolts, ropes, stakes, chains, glue, or similar anchoring are not methods recognized by this ordinance as a permanent foundation.

SIGN, TEMPORARY

Any sign that is temporarily used for a specific duration of time and is not affixed to a permanent foundation or structure.

USE, PRIMARY

The predominant use of any lot or parcel or as determined by the primary structure. In the absence of a primary structure, the primary activity occurring on the property is the primary use.

The above proposed amendments to the text of the Unified Zoning Ordinance of Randolph County are hereby approved and certified with a favorable recommendation by the Randolph County Area Plan Commission on this 17th day of July, 2018.
